Parts:

① Marker and orientation

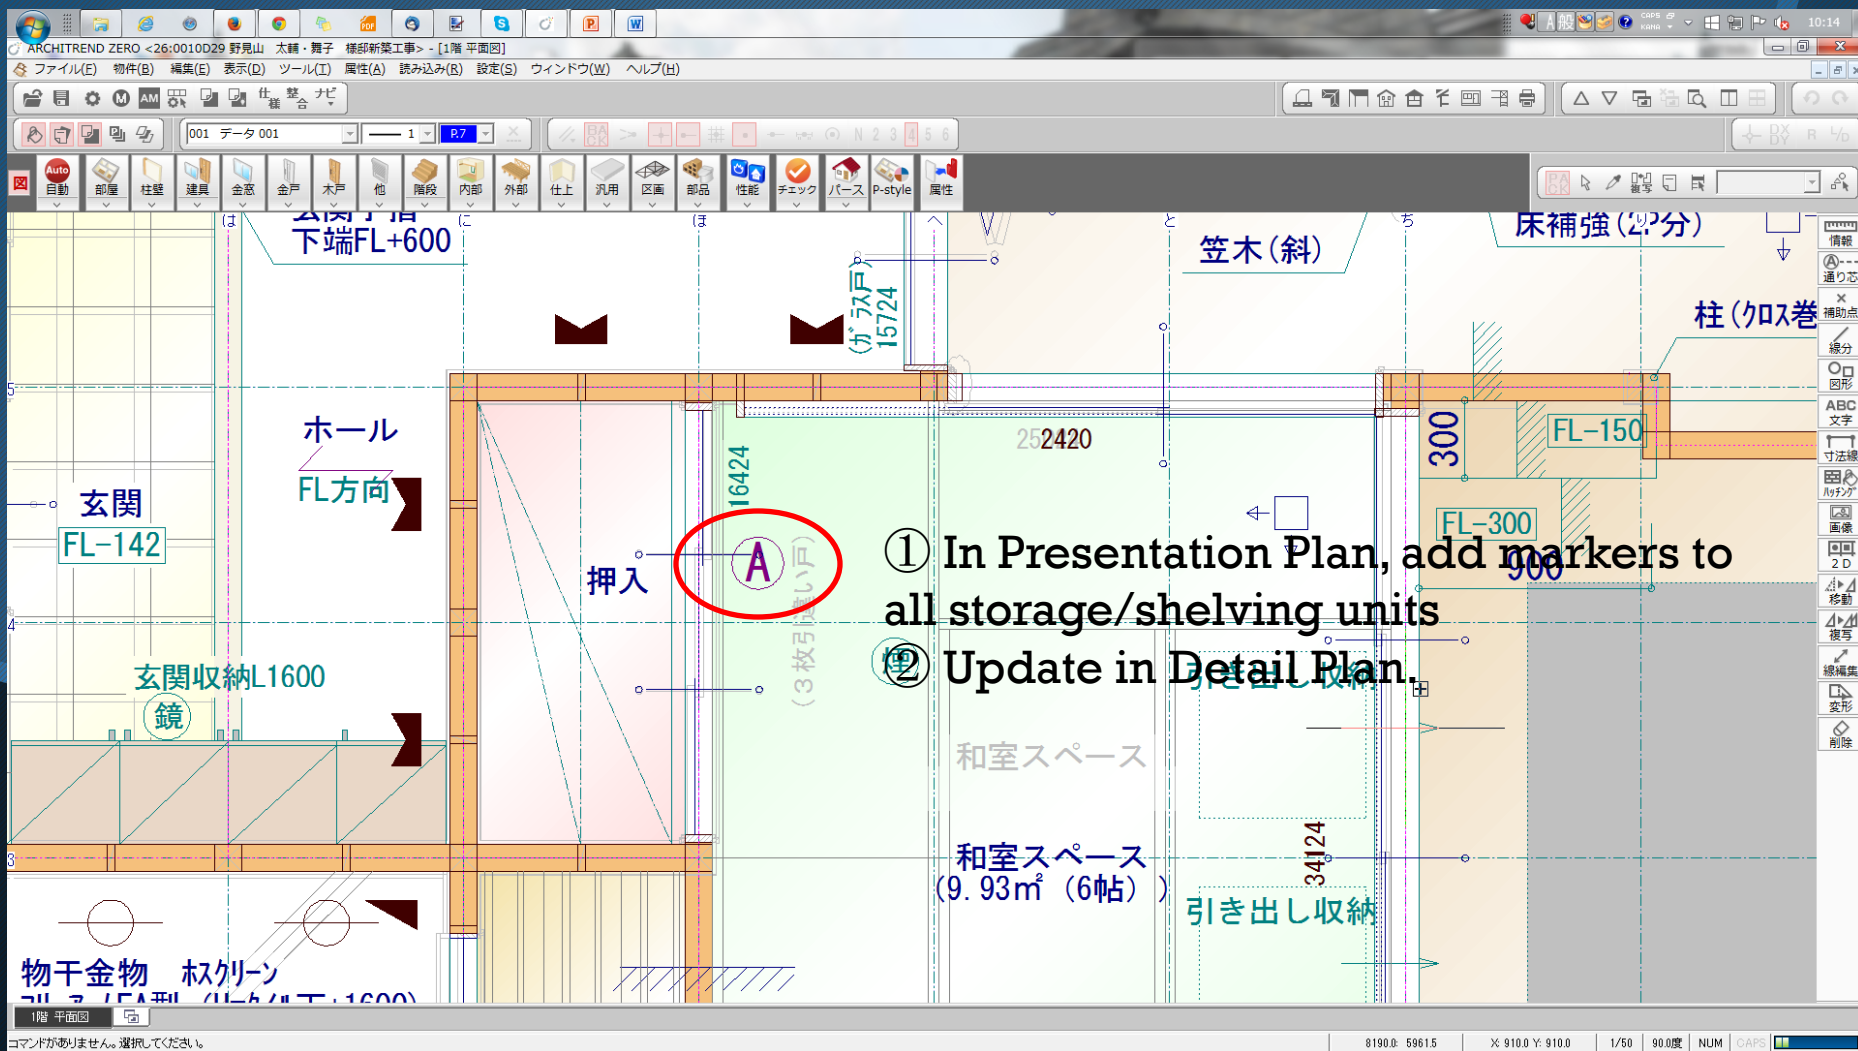

② Storage name

③ Blow-up plan

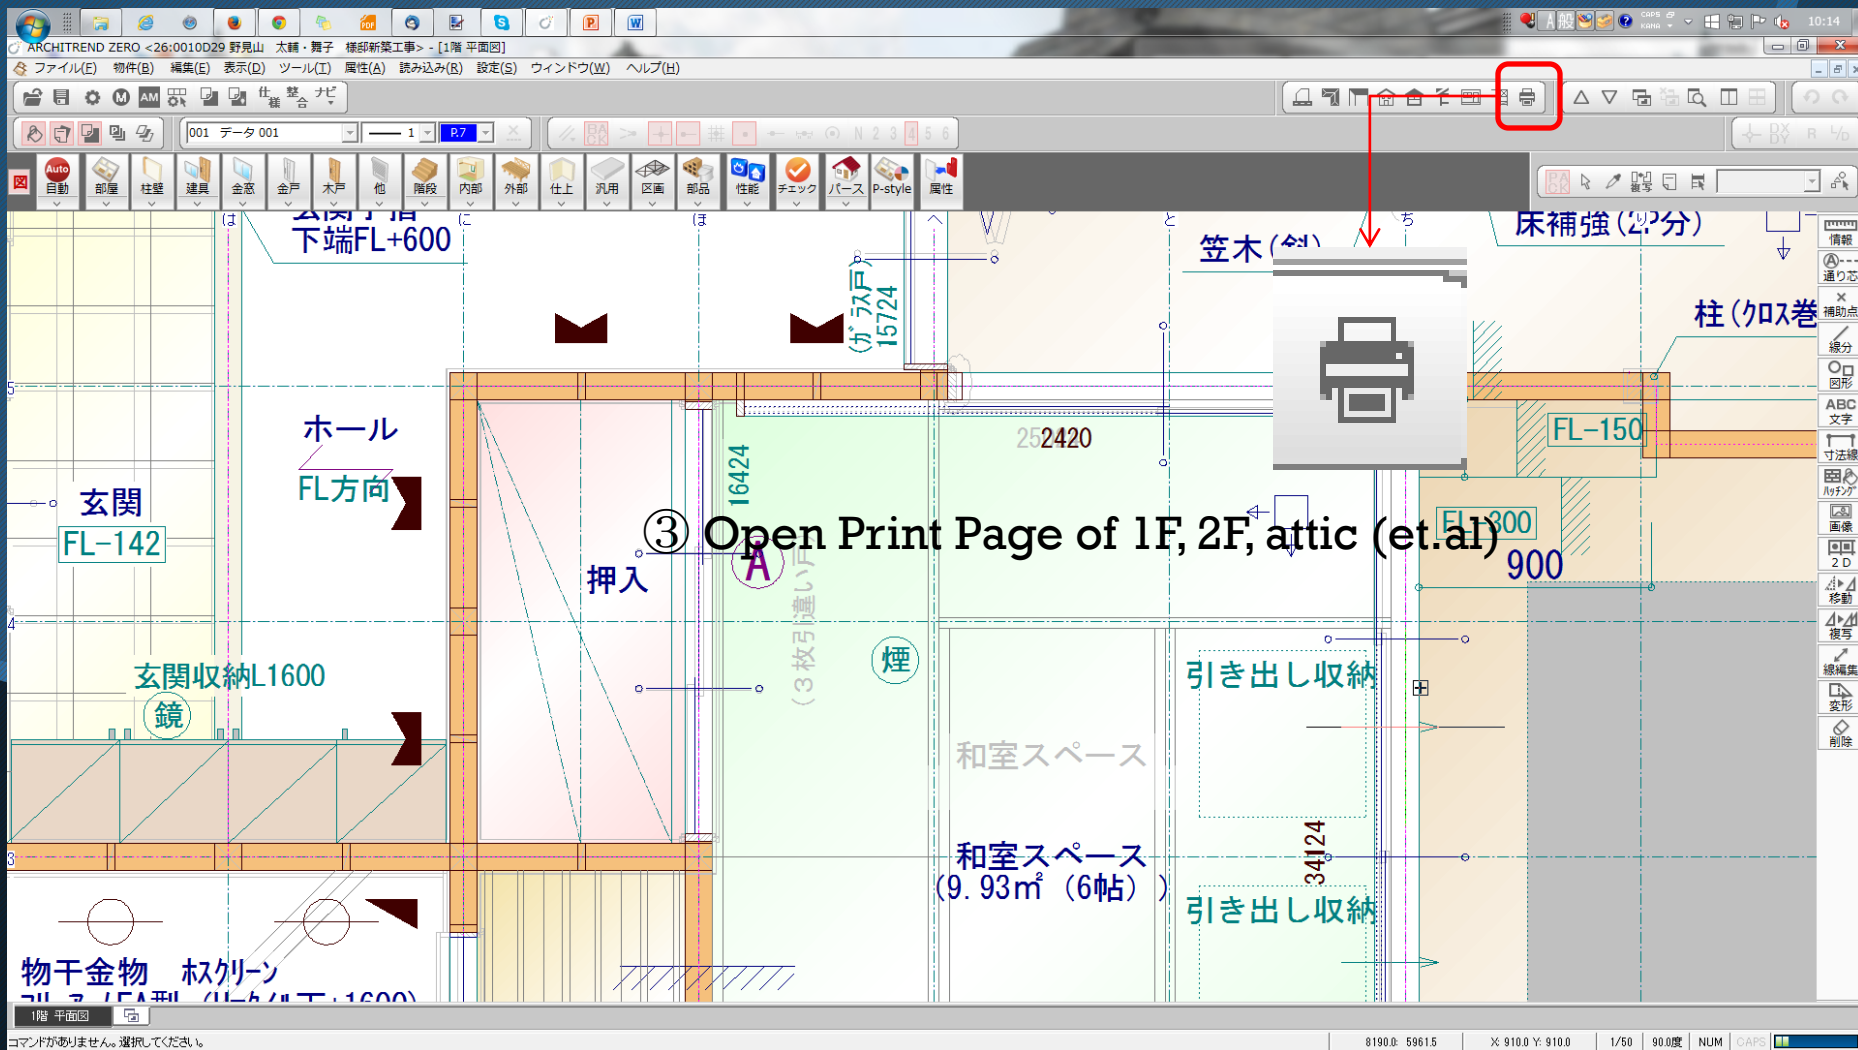

④ Room name

⑤ Notes

How to Create Storage Plan

How to Create Storage Plan

How to Create Storage Plan

The screenshot displays the ARCHITREND ZERO software interface. The main workspace shows a detailed architectural storage plan with various rooms and furniture. A red circle highlights a specific area on the plan. A red arrow points from this area to a dialog box titled "部品選択 <e:*2d部品> - 展開図 Developed View".

The dialog box contains a table of components and a list of groups. The "グループ" (Group) list on the left includes:

- 1:Free
- 2:規格部品
- 3:長期 Tyouki
- 4:
- 5:基礎 Foundation
- 6:
- 7:
- 8:
- 9:DETAIL 詳細
- 10:
- 11:
- 12:
- 13:
- 14:展開図 Developed v
- 15:
- 16:FOUNDATION
- 17:WELLHOMES
- 18:ACTIE
- 19:CLEVERLY
- 20:NXTHOUSE

The "登録部品一覧" (Registered Component List) table shows the following components:

登録部品一覧	6:	7:	8:
*5:Combination	*2:枕+ステップ	*3:枕+中段	*4:可動棚
*1:General			

The "配置" (Configuration) section on the right shows the "配置" (Configuration) button selected. The "2D" button is also highlighted with a red circle. A red arrow points from the "2D" button to the main workspace, indicating the next step in the process.

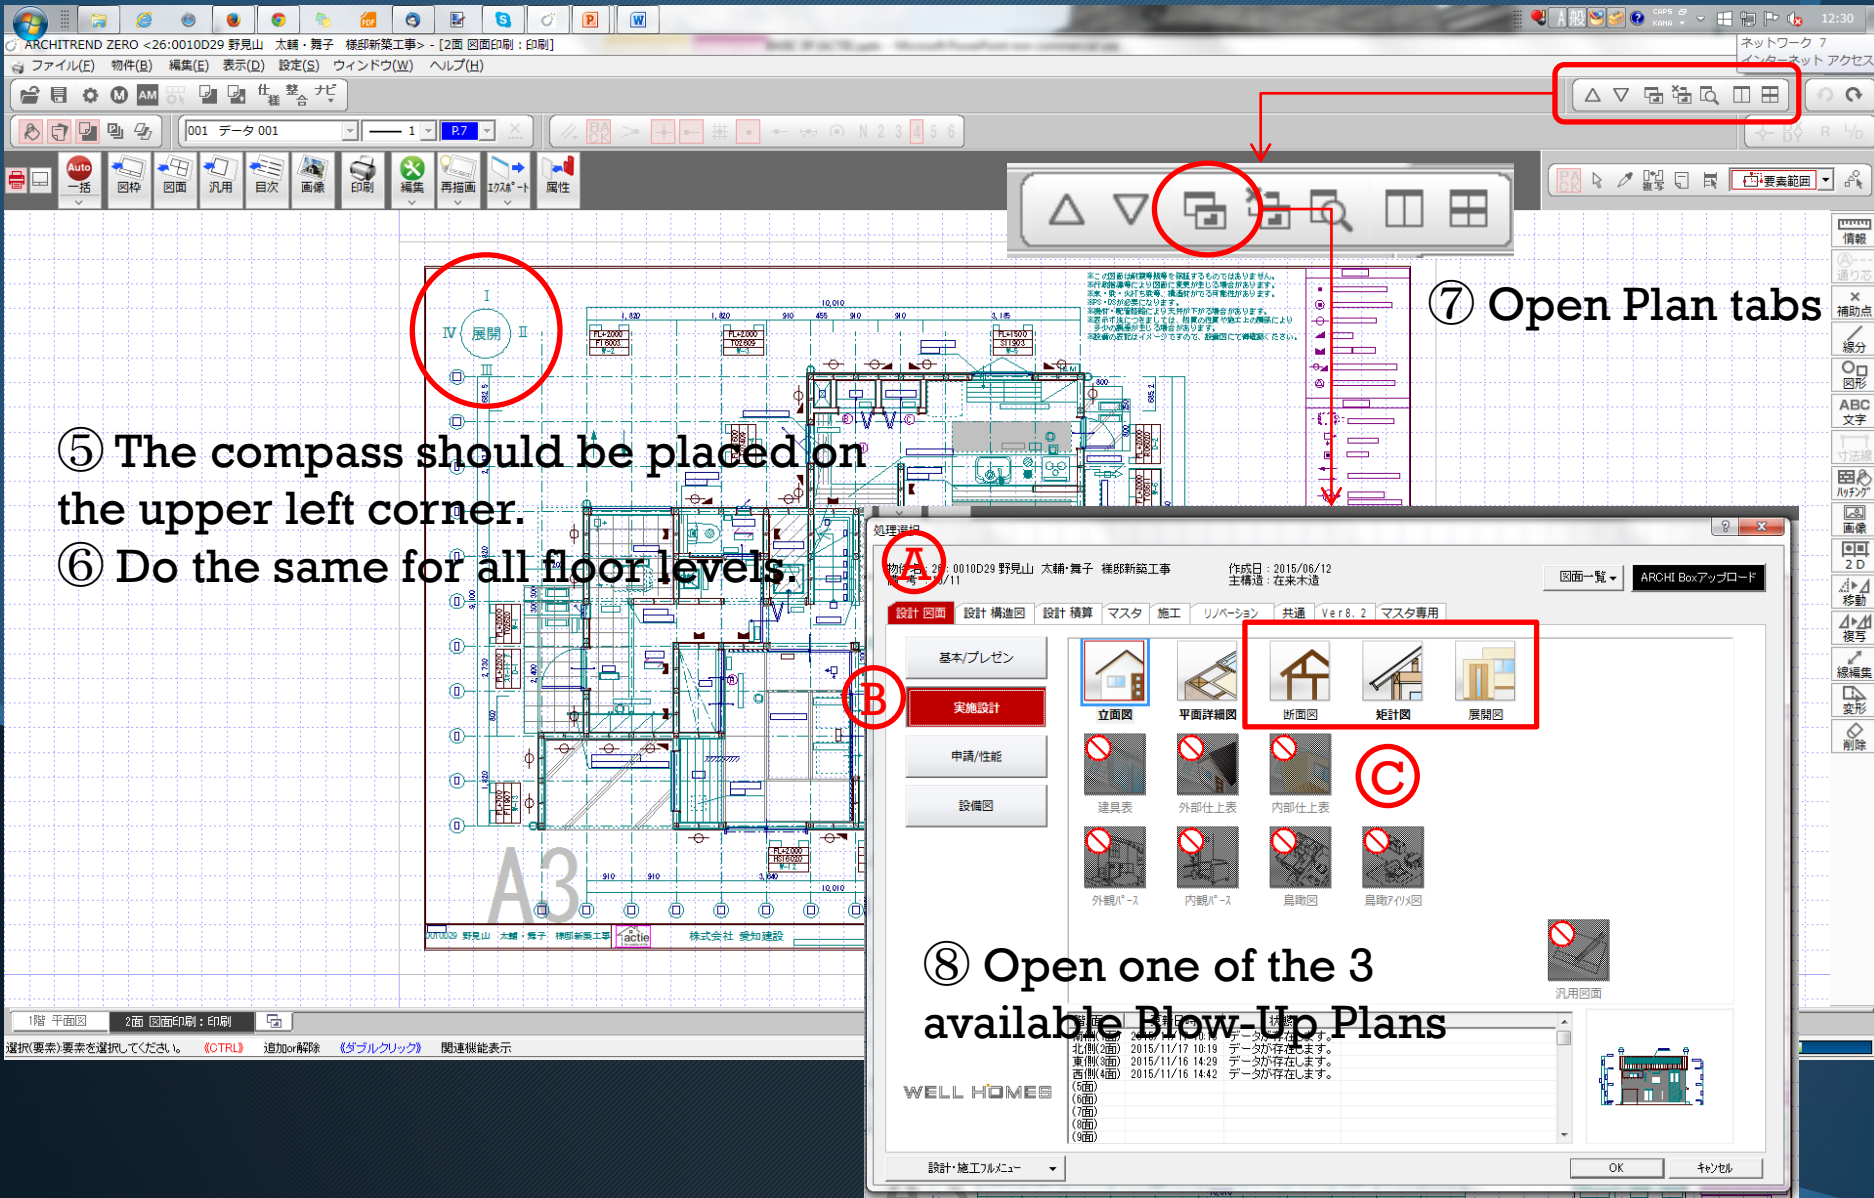

④ Insert the compass symbol from 2D

How to Create Storage Plan

- ⑤ The compass should be placed on the upper left corner.
- ⑥ Do the same for all floor levels.

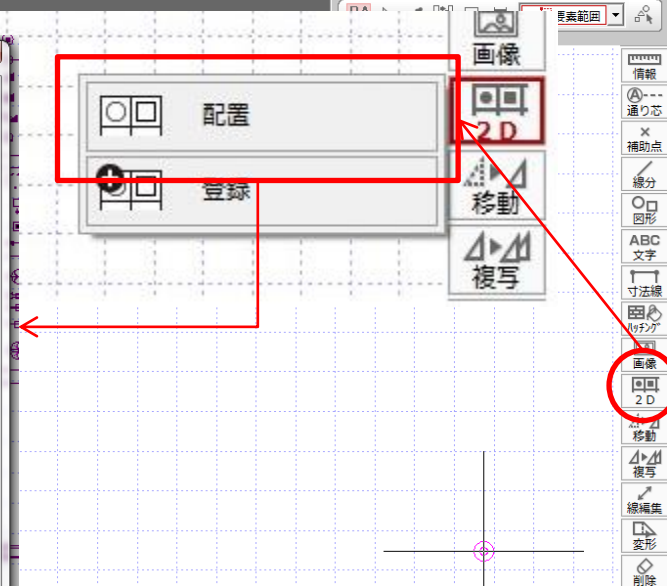

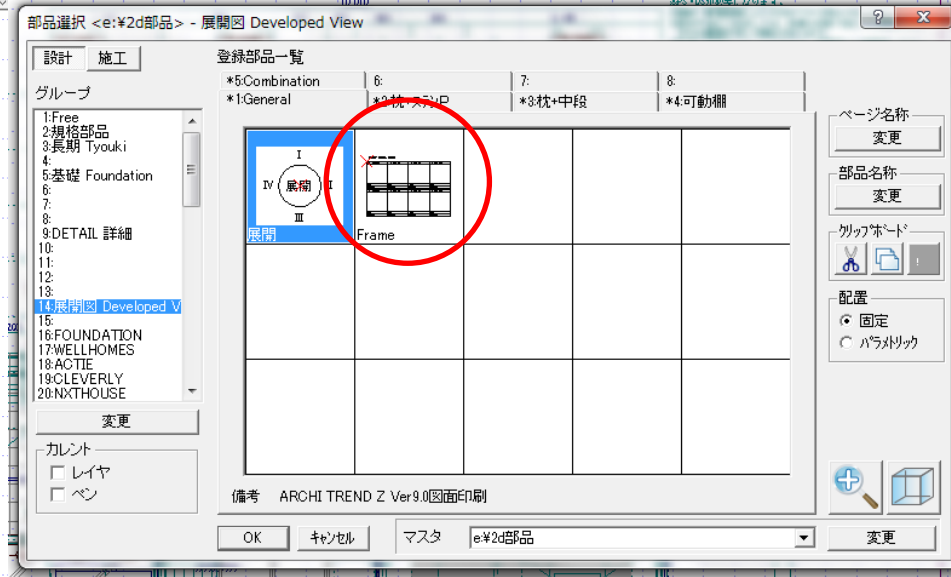

⑦ Open Plan tabs

⑧ Open one of the 3 available Blow-Up Plans

How to Create Storage Plan

⑨ Insert Frames for each storage unit.

⑩ Standard scale is 1/40.

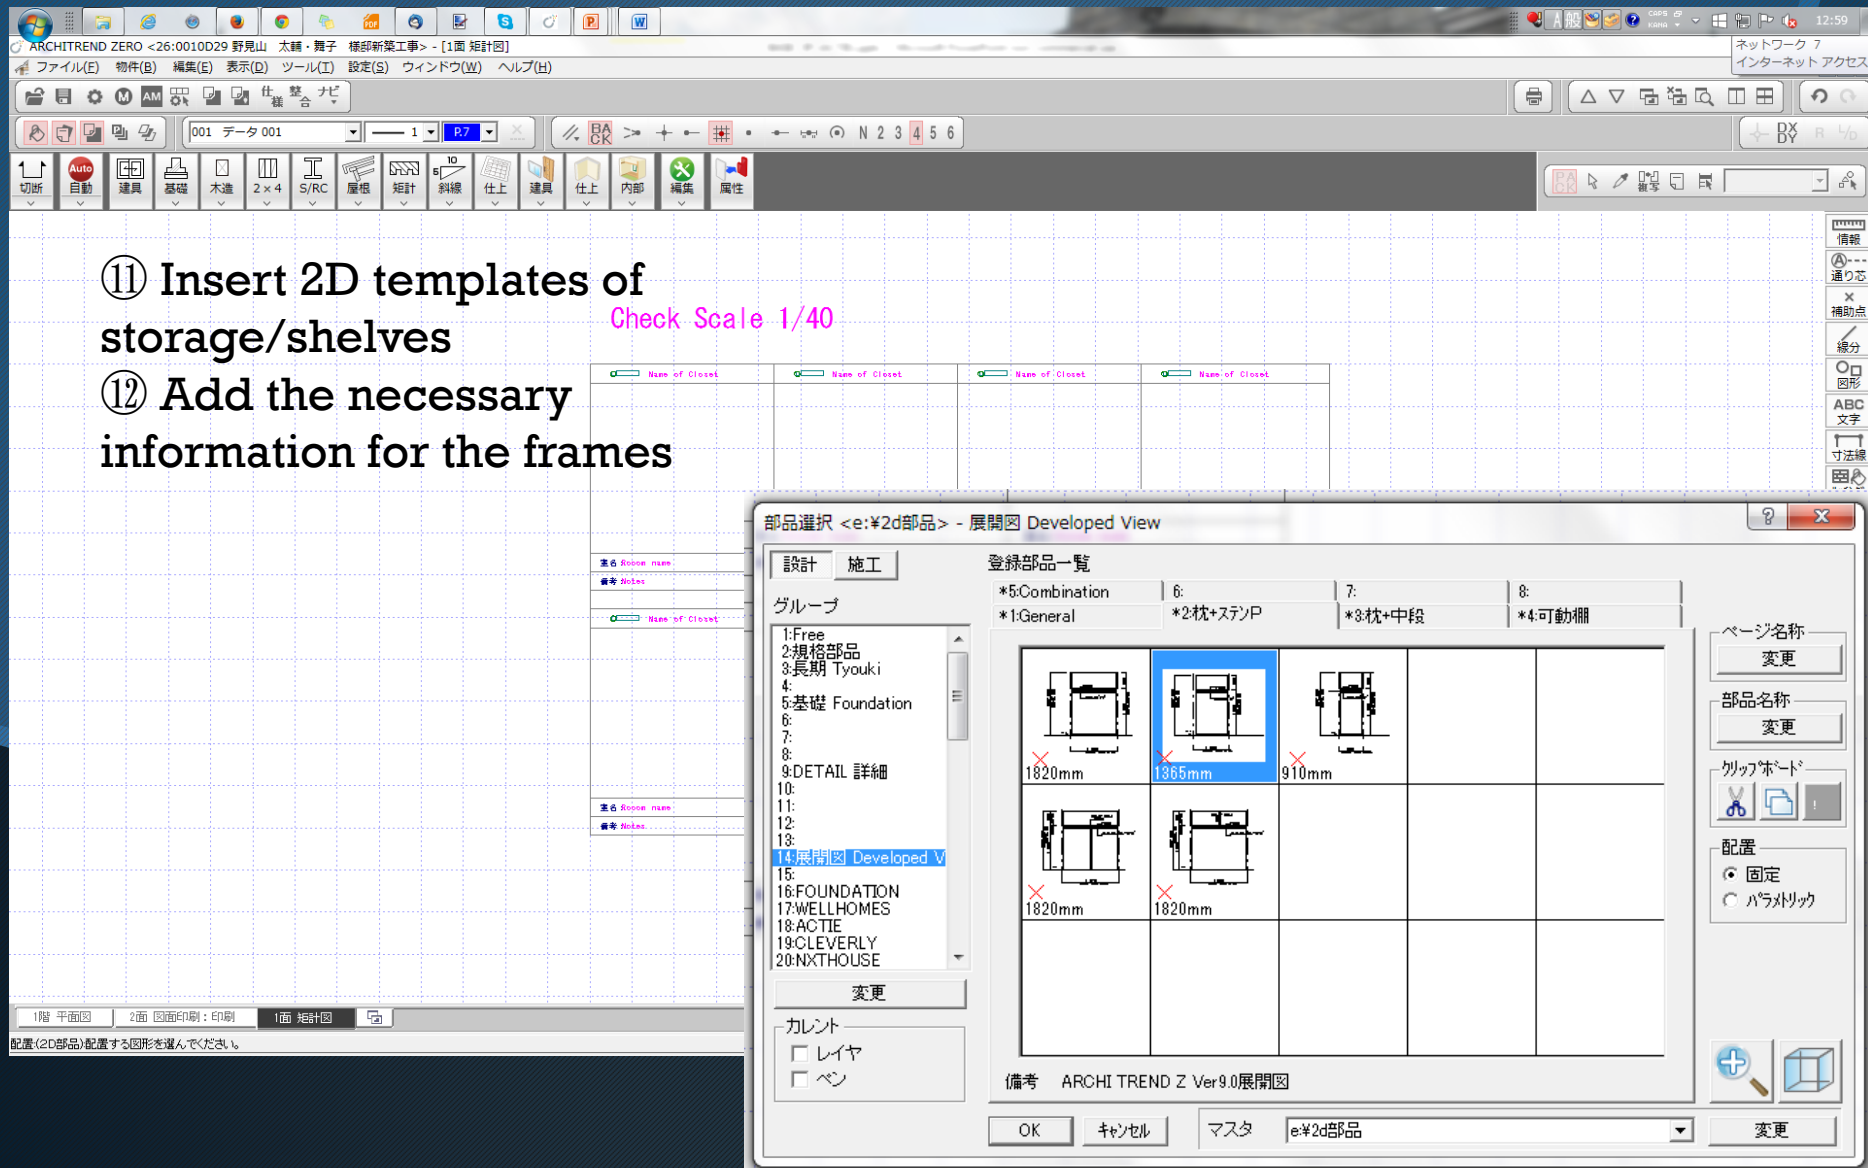

How to Create Storage Plan

⑪ Insert 2D templates of storage/shelves

Check Scale 1/40

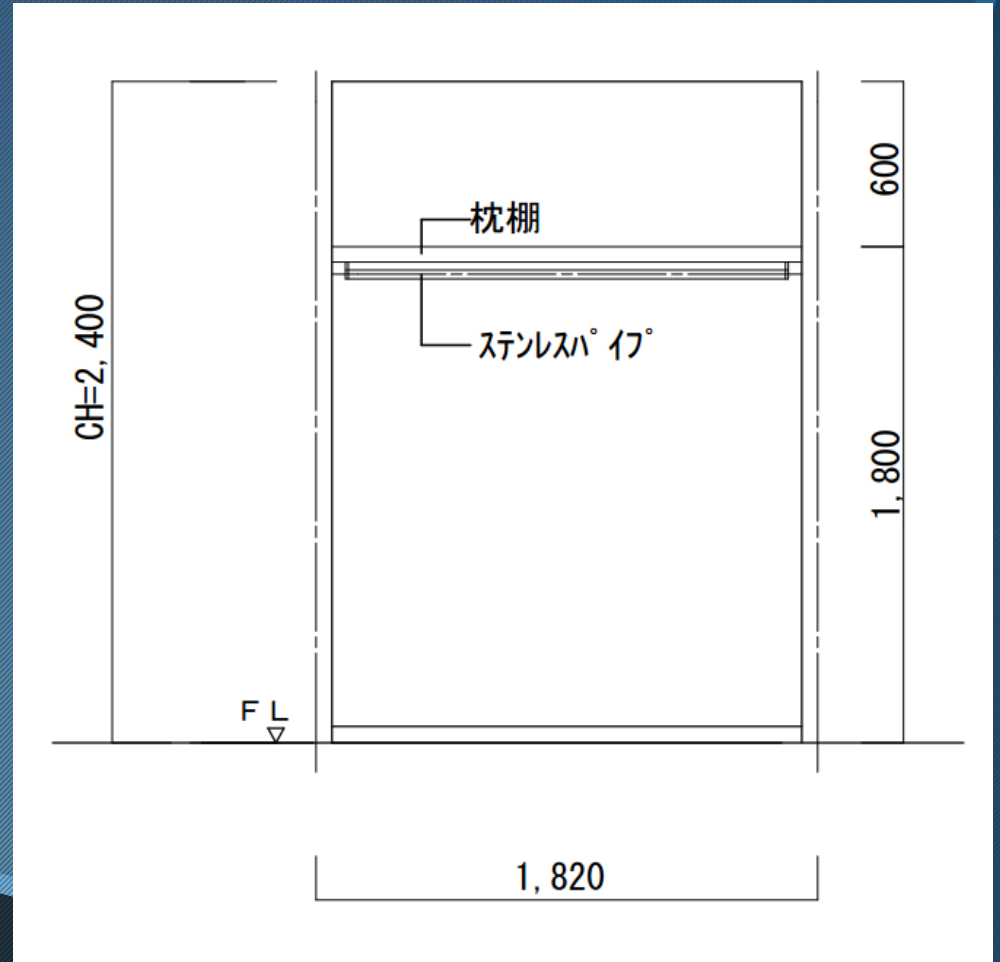

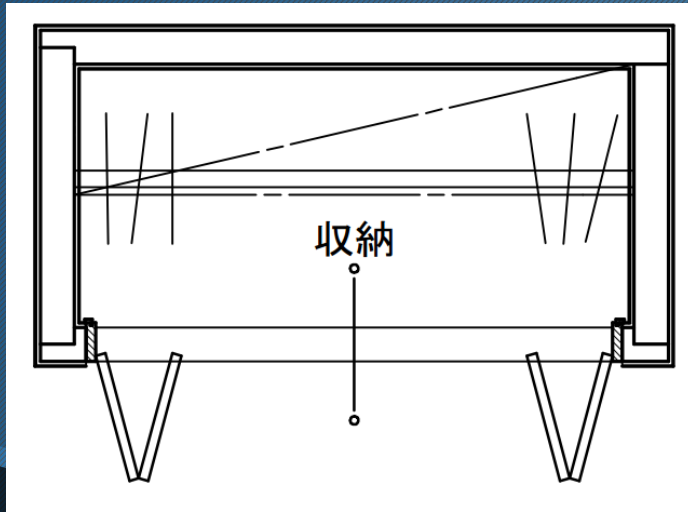

⑫ Add the necessary information for the frames
